---

We own a small business that only plays either satellite radio or the juke box for music. I was told by our vendor of the juke box that we do not have to pay for any licenses fees because they already pay them. I then called my satellite provider and they stated the same thing, that we do not need to pay the license fees because they already pay them. When I was contacted by BMI because we did not pay our License agreement for 2014, I told them that everything we have is already licensed. They stated that there was a clause in the provider license that does not include the business and that we still need to pay the fees. I asked them to provide me with a copy of their license agreement and they said they could not do that. I also told them that I was not going to renew the license for 2014 and they stated that it was an automatic renewal and I didn't have a choice unless I gave them 30 days written notice, so as of now I am still getting charged late fees from them.

Thanks,  
Dan
