Subject: PRO licensing

To Whom It May Concern,

I am a songwriter and am extremely opposed to allowing any PRO or other entity the right to license 100% of compositions that are owned by multiple parties. Joint ownership needs to be honored as just that. Allowing one writer or publisher of a joint work of art the right to license 100% of that work is unfair, unjust, and a slippery slope that will lead to the further devaluation of music. Please do not allow this to happen.

Sincerely,

Frank Rogers
