With the exception of Bixby (and/or successors):

Christopher Li

Edit based on product direction of Search / Assistant

Anna Kartasheva

New

We should add that Search within Google assistant must default to Google and they cant promote/suggest that End Users change that

ReplyOpen

All other search access points (Launchers, Keyboards, Bixby, etc.). Google shall be the default for all search access points and Samsung shall receive revenue share for all designated and future search access points implemented prior to or during the course of the Contemplated Agreement.
