2022-00470	10/04/2021	Louisiana State University	<p>Under the Freedom of Information Act/Privacy, 5 U.S.C. § 552/552a, I request raw data – in a machine-readable database or spreadsheet formats such as SQL, CSV, XML, JSON, Excel, or Access files – on whether appeal decisions made by the B.I.A. and published on the publicly available table on EOIR website (tblAppeal) is a published or unpublished decision. Moreover, I am looking for information regarding the underlying reason, for instance, when an appeal is referred for a three-member panel review and the underlying issue related to the request. In particular, the lookup files available publicly have two tables, namely "tblLookup3MbrReferredReason" and "tblLookupAppealIssues" that are related to variables not available in the (tblAppeal) or "tblThreeMbrReferrals" table, which identifies instances of referrals. To summarize, I request all disclosable fields, as of the following:</p> <ul style="list-style-type: none"> •A table with an appeal identifier (idnappeal) and a variable determining whether the appeal's decision is published or unpublished. •A table with an appeal identifier (idnappeal) and a string variable that links the appeal to an appeal issue matching the (idnAppealIssues) in the corresponding lookup table (tblLookupAppealIssues) •A table with an appeal identifier (idnappeal) and a string variable determining the reason for referring the appeal to the three-member panel to match with the idnReason variable in the "tblThreeMbrReferrals" lookup table. 	01/14/2022	Granted in Full	-
