Background

In accordance with the Inspector General Act of 1978, as amended (IG Act), the Department of Justice (“the Department” or “DOJ”) provides the following management report.¹ This report describes the Department’s actions during the semiannual period ended March 31, 2024, to address recommendations from the Office of Inspector General (OIG) provided in audit, inspection, and evaluation reports. The first section provides information on the status of final action for OIG reports with recommendations that funds be put to better use. The second section provides information on the status of final action for OIG reports with disallowed costs. The third and final section of the report, which addresses a reporting requirement for OIG audit reports only, provides the status of final action for reports open longer than one year for which management decisions have been made but final action has not been completed. During the semiannual reporting period, DOJ components implemented policy and management changes to close 122 recommendations in audit reports that had been open longer than one year.
