UNITED STATES DISTRICT COURT
FOR THE CENTRAL DISTRICT OF CALIFORNIA

March 2022 Grand Jury

UNITED STATES OF AMERICA,

Plaintiff,

v.

LE AHN TUAN,

Defendant.

CR 2:22-cr-00273-JLS

I N D I C T M E N T

[18 U.S.C. § 1349: Conspiracy to Commit Wire Fraud; 18 U.S.C. § 1956(h): Conspiracy to Commit Money Laundering; 18 U.S.C. § 2461(c): Criminal Forfeiture]

The Grand Jury charges:

COUNT ONE

[18 U.S.C. § 1349]

A. INTRODUCTORY ALLEGATIONS

At times relevant to this Indictment:

Relevant Entities and Individuals

1. The Baller Ape Club was a non-fungible token ("NFT") investment program that sold NFTs in the form of various cartoon figures, often with the figure of an ape (a "Baller Ape").

2. The Baller Ape Club conducted its business principally by means of a website accessible at www.ballerapeclub.com (the

1 "Baller Ape Website"). The website purported to offer investors
2 the ability to purchase Baller Apes. The Baller Ape Website was
3 accessible worldwide to the public and was accessed by
4 individuals within the Central District of California and
5 elsewhere.

6 3. Defendant LE AHN TUAN was a citizen of Vietnam.
7 Defendant TUAN founded and registered the Baller Ape Website.
8 During the registration process, defendant TUAN used another
9 individual's identity to conceal his control over the Baller Ape
10 Website. Less than a month after launching the purported
11 investment program, defendant TUAN and his co-conspirators
12 engaged in a "rug pull," that is, they abruptly closed the
13 Baller Ape Website and stole all investors' funds.

14 4. Co-Conspirator 1 ("CC-1"), an affiliate of the Baller
15 Ape Club, resided in Mexico. Among other things, CC-1
16 functioned as a money launderer for the Baller Ape Club and was
17 responsible for concealing the source, origin, and control of
18 funds received from Baller Ape investors.

19 5. Company 1 was a U.S.-based entity and website domain
20 name registrar that provided domain name registration and web
21 hosting services. Defendant TUAN registered the Baller Ape
22 Website through Company 1, and also purchased services through
23 Company 1 for the Baller Ape Website. Defendant TUAN accessed
24 the Company 1 website through a unique IP address associated
25 with defendant TUAN.

26 6. Company 2 was a U.S.-based entity that provided
27 customers with protection against cyber-attacks. Defendant TUAN
28 accessed the Company 2 website through a unique IP address
associated with defendant TUAN.

1 **Relevant Terms**

2 7. A "cryptocurrency" was a digital currency in which
3 transactions were verified and records were maintained by a
4 decentralized system using cryptography, rather than a
5 centralized authority such as a bank or government. Like
6 traditional fiat currency, there were multiple types of
7 cryptocurrencies, including Bitcoin ("BTC"), Ethereum ("ETH"),
8 Solana ("SOL"), and Dai ("DAI").

9 8. The "blockchain" was a distributed public ledger that
10 recorded incoming and outgoing cryptocurrency transactions. The
11 blockchain recorded, among other things, the date and time of
12 each cryptocurrency transaction, the unique cryptocurrency
13 addresses associated with the transaction and the sending and
14 receiving parties, and the amount of cryptocurrency transferred.
15 The blockchain, however, did not identify the parties that
16 controlled the cryptocurrency addresses involved in the
17 transaction.

18 9. Cryptocurrency owners typically stored their
19 cryptocurrency in digital "wallets," which were identified by
20 unique electronic "addresses." By maintaining multiple
21 cryptocurrency addresses, criminals engaged in cryptocurrency-
22 based fraud could attempt to thwart law enforcement's efforts to
23 track the flow of fraud proceeds by quickly transferring such
24 proceeds in various amounts through multiple cryptocurrency
25 addresses and across multiple blockchains.

26 10. "Chain-hopping" referred to the technique commonly
27 used by perpetrators of cryptocurrency frauds to convert one
28 form of cryptocurrency into another and move funds, including
fraud proceeds, from one blockchain to another. Chain-hopping

1 enabled fraud perpetrators to swap one type of cryptocurrency
2 for another -- for example, BTC to SOL -- to disguise the source
3 of the funds used to purchase the original cryptocurrency and to
4 obstruct the ability of law enforcement to trace the movement of
5 fraud proceeds across various cryptocurrency addresses.

6 11. Criminals in the cryptocurrency fraud space frequently
7 used decentralized cryptocurrency "swap services," which
8 referred to a service that could convert one cryptocurrency into
9 another cryptocurrency in order to disguise, obscure, and
10 obfuscate the trail that would lead to the funds' original
11 source.

12 12. An "NFT" was a non-interchangeable unit of data stored
13 on the blockchain that could be sold and traded. Some NFTs were
14 part of the Solana blockchain, which was one of the largest
15 open-source blockchains. SOL was the native cryptocurrency of
16 the Solana blockchain.

17 13. There were different types of NFT data files that
18 could be purchased. The most basic NFT data file was like a
19 .jpeg image file that provided an investor with an electronic
20 image and a certificate of ownership. By contrast, a "utility"
21 NFT data file offered added benefits, such as reward programs,
22 giveaways, and early access to events for NFT holders.

23 14. Each NFT was commonly referred to as a "token," which
24 was uniquely identifiable on the blockchain.

25 15. The process of turning a digital file into an NFT
26 (i.e., a crypto collectible or digital asset) on the Solana
27 blockchain was typically referred to as "minting." The digital
28 file was stored on the Solana blockchain, and typically could
not be edited, modified, or deleted.

1 16. The minting of an NFT required the creation of a
2 "smart contract," which was recorded on the blockchain and
3 outlined the rules that governed the sale and any subsequent
4 transfers of the NFTs after minting. NFT smart contracts were
5 written in computer code and publicly viewable on the Solana
6 blockchain.

7 17. A "rug pull" was a colloquial term that referred to a
8 scenario where the creator of an NFT program solicited
9 investments and then abruptly abandoned a program and
10 fraudulently retained the program investors' funds.

11 B. THE OBJECT OF THE CONSPIRACY

12 18. Beginning no later than in or around September 2021
13 and continuing until at least in or around March 2022, in Los
14 Angeles County, within the Central District of California, and
15 elsewhere, defendant TUAN conspired with CC-1 and others known
16 and unknown to the Grand Jury to commit wire fraud, in violation
17 of Title 18, United States Code, Section 1343.

18 C. THE MANNER AND MEANS OF THE CONSPIRACY

19 19. The object of the conspiracy was to be carried out,
20 and was carried out, in substance, as follows:

21 **Overview of the Baller Ape Rug Pull**

22 20. In September 2021, defendant TUAN formed, registered,
23 and funded the Baller Ape Club Website. Various social media
24 communication platforms began advertising the sale of Baller Ape
25 NFTs. These platforms directed interested investors to the
26 Baller Ape Club Website, which defendant TUAN controlled.

27 21. Defendant TUAN's Baller Ape Club Website marketed the
28 sale of Baller Ape NFTs, which were electronic images of various
cartoon ape figures, as depicted below in screenshots taken from

1 the Baller Ape Club Website:

21
22
23
24

22. In addition to the sale of the digital NFT image, the Baller Ape Club Website advertised the following benefits:

a. Access to "an exclusive VIP Lounge where all fellow Primates gather to flex their Rolex, NFT's and sip on a banana cocktail," and where "benefits, offerings and rewards will increase over time."

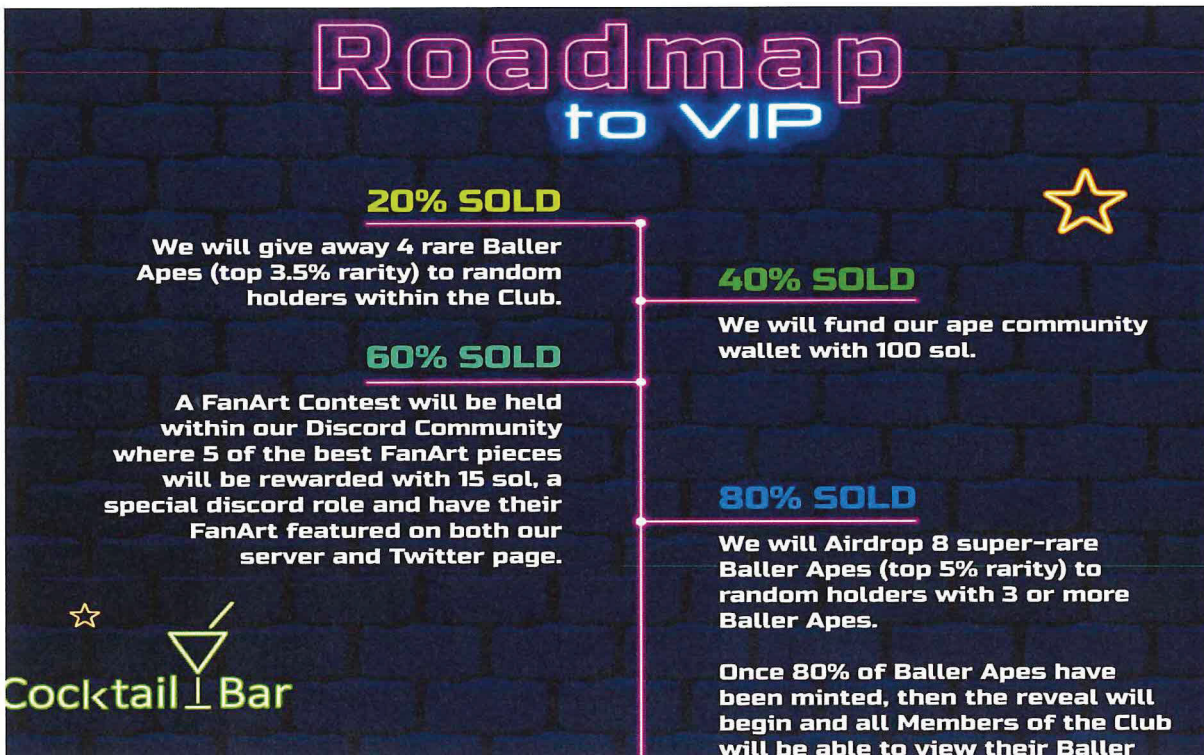

b. Donations to "a number of charity organizations, starting with 50 SOL to a charity of the Club's choosing, [that] we will achieve . . . through community voting power on our Discord."

c. "All Baller Ape holders receive 5% in Sol [SOL] rewards."

25
26
27
28

23. The Baller Ape Club Website also claimed that a "rarity app . . . will be available via our website after minting is complete, thus will allow all holders to get their exact [NFT] rarity statistics!"

1 24. The images below are screenshots taken from the Baller
2 Ape Club Website and show the advertised "roadmap" and plan for
3 October 2021 to December 2021, which purportedly was to be
4 implemented immediately following the Baller Ape NFT sale. In
5 particular, the "Roadmap to VIP" advertised, among other things,
6 that when 100% of the Baller Apes were sold, the Baller Ape NFT
7 program developers would "fund our ape community wallet with 500
8 sol [SOL]."

100% SOLD

We will fund our ape community wallet with 500 sol.

BALLER PHASE II

As all of our Baller Apes are males, we plan on releasing a new category of female 'Babe Apes' that will join the Club. This feature will allow our Baller Ape Members to mint a free 'Babe Ape' just for holding their collectables. **COMING SOON!**

Members Only, limited edition merchandise to be released, including t-shirts, hoodies, hats, and much more!

Begin and all Members of the Club will be able to view their Baller Apes.

ENTRY CLOSED

Begin our marketplace, as well as list on solanart and digital.eyes so our valued ape holders can list, buy and sell their Baller Apes.

October 2021	November 2021	December 2021
<ul style="list-style-type: none"> Marketplace listing on solanart & DigitalEyes directly after launch Baller Ape Club marketplace launch Submit orders for the Baller Ape hats, Hoodies & t-shirt mint rewards Announce the winners of the Silver BAC Collector, Golden BAC Collector and King BAC Collector rewards. Open to baller ape members only Launch the Baller Ape DAO Secret announcement (New Year's Eve) Partner with global brand managers to bring the Baller Ape Club name to the masses More coming soon

1 25. Each Baller Ape was advertised to cost approximately 2
2 SOL, which, at the time of the Baller Ape NFT sale, was
3 equivalent to approximately \$282.14 to \$323.36. In total, the
4 Baller Ape Club Website advertised 5,000 Baller Ape tokens for
5 sale.

6 26. On or about October 1, 2021, the Baller Ape Club
7 Website permitted individuals to purchase a Baller Ape token
8 through either a private presale or a public sale.

9 27. Approximately five minutes before the public sale
10 began, conspirators operating a Baller Ape Club social media
11 account informed potential investors that (1) the price was 2
12 SOL per Baller Ape token, (2) there was a maximum of two Baller
13 Ape tokens per transaction, and (3) there was no limit as to the
14 number of transactions a potential investor could make.

15 28. Conspirators operating the Baller Ape Club social
16 media account mentioned in the preceding paragraph also provided
17 potential investors with three additional website links to mint
18 their Baller Ape tokens. The website links were connected to
19 the Baller Ape Website that defendant TUAN created.

20 29. After a potential investor clicked on one of the three
21 website links, the Baller Ape Website instructed the potential
22 investor to "Please connect your wallet to buy Baller Ape NFTs."
23 The Baller Ape Website then instructed the potential investor to
24 allow the website link to connect to the cryptocurrency wallet
25 the investor had selected. The Baller Ape Website then allowed
26 the potential investor to input the number of Baller Ape tokens
27 he or she wanted to purchase.

28 30. After inputting the number, the potential investor
would click on a "Mint" button and be instructed to approve a

1 transaction transferring SOL to four particular SOL
2 cryptocurrency wallet addresses (the "Baller Ape Wallet
3 Addresses"). The Baller Ape Website represented that this
4 transaction would cause the desired amount of SOL to be
5 transferred in exchange for the equivalent number of Baller Ape
6 tokens. The Baller Ape Website then falsely informed the
7 investors that their transaction failed (the "Failed
8 Transactions"), and that they would need to restart the NFT
9 minting process.

10 31. Even though the potential investors received Failed
11 Transactions notices, which falsely represented that SOL had not
12 been transferred from the investors' cryptocurrency wallets, the
13 SOL would in fact be transferred to the Baller Ape Wallet
14 Addresses.

15 32. After investors' SOL had been transferred to the
16 Baller Ape Wallet Addresses, defendant TUAN and his co-
17 conspirators engaged in a "rug pull," meaning that they ended
18 the NFT program prematurely and stole the investors' money.
19 Defendant TUAN and his co-conspirators provided no NFTs or any
20 of the promised benefits to the investors and deleted the Baller
21 Ape Club Website and related social media accounts.

22 33. In total, through this conspiracy, defendant TUAN and
23 his co-conspirators obtained approximately \$2.6 million worth of
24 SOL from investors in the Baller Ape program.

25 34. As a further part of the conspiracy, in order to
26 prevent the investors from recovering the money that had been
27 fraudulently obtained from the investors, defendant TUAN, CC-1,
28 and their conspirators laundered investors' funds through the
use of chain-hopping, decentralized cryptocurrency swap

1 services, and other common money laundering techniques designed
2 to obfuscate the origin and subsequent movement of Baller Ape
3 investors' funds.

4 35. In furtherance of the conspiracy:

5 a. Defendant TUAN electronically would submit, and
6 cause to be submitted, documents to Company 1 and Company 2, in
7 connection with the creation of the Baller Ape Website;

8 b. Defendant TUAN and his conspirators would use the
9 Baller Ape Website to publish, and cause to be published,
10 materially false statements to victim-investors regarding the
11 use of funds, falsely representing that such funds would be used
12 to acquire Baller Ape NFTs when, in fact, the funds would be
13 stolen by defendant TUAN and his conspirators;

14 c. Defendant TUAN and his conspirators, by and
15 through their scheme to defraud victim-investors of money and
16 other property, including cryptocurrency, by means of fraudulent
17 pretenses, false representations, and false promises, would
18 induce victim-investors to transmit, and cause to be
19 transmitted, cryptocurrency by means of interstate and foreign
20 wires.

21 d. Defendant TUAN and his conspirators would hide
22 the proceeds of their fraud by transferring and exchanging
23 Baller Ape investors' funds into various cryptocurrencies and
24 foreign currencies, and engaged in chain-hopping by transferring
such funds across multiple blockchains.

25 D. OVERT ACTS

26 36. On or about the following dates, in furtherance of the
27 conspiracy and to accomplish its object, defendant TUAN, CC-1,
28 together with their conspirators, committed and knowingly caused

1 others to commit the following overt acts, among others, within
2 the Central District of California, and elsewhere:

3 Overt Act No. 1: On September 14, 2021, defendant TUAN,
4 using another individual's identity, registered the Baller Ape
5 Website through Company 1, and paid for these services.

6 Overt Act No. 2: On September 14, 2021, defendant TUAN
7 created an account for the Baller Ape Website through Company 2.

8 Overt Act No. 3: On October 1, 2021, defendant TUAN,
9 together with other co-conspirators, caused C.M., a resident of
10 the Central District of California, to electronically transfer
11 approximately 18 SOL to the Baller Ape Website for the purchase
12 of a Baller Ape NFT.

13 Overt Act No. 4: On September 14, 2021, defendant TUAN
14 accessed the Company 1 and Company 2 accounts for the Baller Ape
15 Website. After that day -- the day of the rug pull -- defendant
16 TUAN never again accessed the Company 1 account nor the Company
17 2 account for the Baller Ape Website.

18 Overt Act No. 5: On February 1, 2022, CC-1 converted
19 10,015.00 DAI in Baller Ape investors' funds into foreign fiat
20 currency.

21 Overt Act No. 6: On February 4, 2022, CC-1 converted
22 500.03562143 DAI in Baller Ape investors' funds into foreign
23 fiat currency.

24 Overt Act No. 7: On March 6, 2022, CC-1 converted
25 494.19448476 DAI in Baller Ape investors' funds into foreign
26 fiat currency.

COUNT TWO

[18 U.S.C. § 1956(h)]

1
2
3 37. The Grand Jury re-alleges paragraphs 1 through 17 and
4 paragraphs 20 through 34 of this Indictment here.

5 38. Beginning no later than in or around September 2021
6 and continuing until at least in or around March 2022, in Los
7 Angeles County, within the Central District of California, and
8 elsewhere, defendant TUAN, CC-1, together with others, known and
9 unknown to the Grand Jury, knowingly and intentionally combined,
10 conspired, and agreed among themselves to commit the following
11 money laundering offense: to transport, transmit, and transfer,
12 and attempt to transmit and transfer, monetary instruments and
13 funds, from a place in the United States to and through a place
14 outside of the United States, knowing that the monetary
15 instruments and funds involved in such actual and attempted
16 transportation, transmission, and transfer were designed in
17 whole or part to conceal and disguise the nature, location,
18 source, ownership, and control of the proceeds of one or more
19 specified unlawful activities, to wit: wire fraud in violation
20 of Title 18, United States Code, Section 1343, all in violation
21 of Title 18, United States Code, Section 1956(a)(2)(B)(i).

FORFEITURE ALLEGATION

[18 U.S.C. § 981(a)(1)(C) and 28 U.S.C. § 2461(c)]

39. Pursuant to Rule 32.2(a) of the Federal Rules of Criminal Procedure, notice is hereby given that the United States of America will seek forfeiture as part of any sentence, pursuant to Title 18, United States Code, Section 981(a)(1)(C) and Title 28, United States Code, Section 2461(c), in the event of defendant LE AHN TUAN's conviction of the offenses set forth in either of Counts One and Two of this Indictment.

40. Defendant TUAN, if so convicted, shall forfeit to the United States of America the following:

a. all right, title, and interest in any and all property, real or personal, constituting, or derived from, any proceeds traceable to the offenses set forth in Counts One and Two of this Indictment; and

b. to the extent such property is not available for forfeiture, a sum of money equal to the total value of the property described in subparagraph (a).

41. Pursuant to Title 21, United States Code, Section 853(p), as incorporated by Title 28, United States Code, Section 2461(c), defendant TUAN, if so convicted, shall forfeit substitute property, up to the value of the property described in the preceding paragraph if, as the result of any act or omission of defendant TUAN, the property described in the preceding paragraph or any portion thereof (a) cannot be located upon the exercise of due diligence; (b) has been transferred, sold to, or deposited with a third party; (c) has been placed beyond the jurisdiction of the court; (d) has been substantially diminished in value; or (e) has been commingled with other

1 property that cannot be divided without difficulty.
