INDICTMENT

The Grand Jury charges that:

GENERAL ALLEGATIONS

At all times material to this Indictment:

The Medicare Program

1. The Medicare Program ("Medicare") was a federally funded program that provided free or below-cost health care benefits to certain individuals, primarily the elderly, blind, and disabled. The benefits available under Medicare were governed by federal statutes and regulations. The United States Department of Health and Human Services, through its agency, the Centers for Medicare and Medicaid Services ("CMS"), oversaw and administered Medicare. Individuals who received benefits under Medicare were commonly referred to as Medicare "beneficiaries."

2. Medicare programs covering different types of benefits were separated into different program "parts." Part D of Medicare subsidized the costs of prescription drugs for Medicare

beneficiaries in the United States. It was enacted as part of the Medicare Prescription Drug, Improvement, and Modernization Act of 2003 and went into effect on January 1, 2006.

3. In order to receive Part D benefits, a beneficiary enrolled in a Medicare drug plan. Medicare drug plans were operated by private companies approved by Medicare. Those companies were often referred to as drug plan “sponsors.” A beneficiary in a Medicare drug plan could fill a prescription at a pharmacy and use his or her plan to pay for some or all of the prescription.

4. A pharmacy could participate in Part D by entering a retail network agreement with one or more Pharmacy Benefit Managers (“PBMs”). Each PBM acted on behalf of one or more Medicare drug plans. Through a plan’s PBM, a pharmacy could join the plan’s network. When a Part D beneficiary presented a prescription to a pharmacy, the pharmacy submitted a claim to the PBM that represented the beneficiary’s Medicare drug plan. The PBM would process the claim on behalf of the Medicare drug plan, determining whether the pharmacy was entitled to payment for each claim and, if so, paying the pharmacy for the claims for the prescription drug event (*e.g.* the dispensing of prescription drugs to a beneficiary), minus any co-pay to be paid by the Medicare beneficiary. The drug plan’s sponsor reimbursed the PBM for its payments to the pharmacy.

5. Medicare, through CMS, compensated the Medicare drug plan sponsors. Medicare paid the sponsors a monthly fee for each Medicare beneficiary of the sponsors’ plans. Such payments were called capitation fees. The capitation fee was adjusted periodically based on various factors, including the beneficiary’s medical conditions. In addition, in some cases where a sponsor’s expenses for a beneficiary’s prescription drugs exceeded that beneficiary’s capitation fee, Medicare reimbursed the sponsor for a portion of those additional expenses.

6. Medicare and Medicare drug plan sponsors were “health care benefit program[s],” as defined by Title 18, United States Code, Section 24(b).

**Medicare Drug Plan Sponsor**

7. United Healthcare Insurance Company (“United”), was, among others, a Medicare drug plan sponsor.

**Relevant Entity and Defendant**

8. Garcia Pharmacy and Discount Corp. (“Garcia Pharmacy”) was a Florida corporation, incorporated on or about September 13, 2010, that did business in Miami-Dade County purportedly providing prescription drugs to Medicare beneficiaries.
