Alphabetical list of all registrants whose registrations were in active status at any time during the calendar years 1988, 1989, 1990 and 1991, as well as the countries in which their foreign principals are located.

REPORT OF THE ATTORNEY GENERAL TO THE  
CONGRESS OF THE UNITED STATES ON THE  
ADMINISTRATION OF THE FOREIGN AGENTS  
REGISTRATION ACT OF 1938, AS AMENDED,  
FOR THE CALENDAR YEARS 1988, 1989, 1990 AND 1991

TO THE SENATE AND HOUSE OF REPRESENTATIVES OF THE  
UNITED STATES OF AMERICA IN CONGRESS ASSEMBLED:

I have the honor to report on the administration of the Foreign Agents Registration Act of 1938, as amended, pursuant to Section 11 of the Act (22 U.S.C. 621), which requires the Attorney General to report from time to time to the Congress concerning the administration of the Act, as well as the nature, source and content of political propaganda disseminated or distributed by agents of foreign principals registered under the Act.

It has been the policy of the Department since 1950 to prepare a report each year. As a result of converting from a manual to a computerized system of records, this report covers the administration and enforcement of the Foreign Agents Registration Act for the calendar years 1988, 1989, 1990 and 1991.

The text of this year's report lists according to geographical area or nationality field all registrants who were registered at any time during the calendar years 1988, 1989, 1990 and 1991. It includes the identity of the foreign principal(s), a description of the agent's activities, a total figure for monies received for each calendar year an agent was active, and a description of any political propaganda disseminated.

## PURPOSE OF THE ACT

The principal purpose of Congress in enacting the Foreign Agents Registration Act was to ensure that the Government and the people of the United States would be informed of the identity of persons engaging in political activities for or on behalf of foreign governments, foreign political parties and other foreign principals.

The amendments to the Foreign Agents Registration Act were designed to strengthen the basic purpose of the original Act -- i.e., to protect the interests of the United States by requiring complete public disclosure by persons acting for or in the interests of foreign principals where such activities are political in nature. The public disclosure required by the Act permits the Government and the people of the United States to be informed as to the identities and activities of such persons and to be better able to appraise them and the purposes for which they act. These amendments arose in connection with hearings held by the Senate Foreign Relations Committee in its examination of the interrelationships of nondiplomatic agents with the executive and legislative branches of the Government, as well as with our mass media.

Registration under the Act does not imply recognition by United States Government of either the existence or legality of the foreign principal. Furthermore, registration does not indicate approval by the United States Government of the propaganda material disseminated or of the activities of the registered agent.

### STATISTICAL SUMMARY

During the calendar year 1988, the Department received 199 new registration statements and terminated 170 registrations, leaving a total of 767 active registrations, representing 1,817 foreign principals, on file as of December 31, 1988. Individuals acting as officials or employees or rendering assistance to a registrant for or in the interests of the latter's foreign principal filed 866 short-form registration statements under the Act, bringing the 1988 year end total of active short-form registration statements to 3,527. There were 464 agreements with new foreign principals reported by agents currently registered under the Act.

In calendar year 1989, the Department received 127 new registration statements and terminated 131 registrations leaving a total of 763 active registrations, representing 1,651 foreign principals, on file as of December 31, 1989. Individuals acting as officials or employees or rendering assistance to a registrant for or in the interests of the latter's foreign principal filed 919 short-form registration statements under the Act, bringing the total of active short form registration statements to 3,580. There were 446 agreements with new foreign principals reported by agents currently registered under the Act.

In calendar year 1990, the Department received 132 new registration statements and terminated 126 registrations leaving a total of 769 active registrations, representing 1,749 foreign principals, on file as of December 31, 1990. Individuals acting as officials or employees or rendering assistance to a registrant for or in the interests of the latter's foreign principal filed 1,088 short-form registration statements under the Act, bringing the total of active short form registration statements to 3,608. There were 499 agreements with new foreign principals reported by agents currently registered under the Act.

Finally, in calendar year 1991, the Department received 148 new registration statements and terminated 128 registrations, leaving a total of 788 active registrations, representing 1,749 foreign principals, on file as of December 31, 1991. Individuals acting as officials or employees or rendering assistance to a registrant filed 1,058 short form registrations under the Act, bringing the total of active short form registrations to 3,974. There were 494 agreements with new foreign principals reported by agents currently registered under the Act.

In each of these calendar years, the staff of the Registration Unit reviewed over 1,500 supplemental statements and processed approximately 15,000 pieces of both incoming and outgoing correspondence which involved other government agencies, registrants and the general public.

During the four year period, the staff continued the conversion from a manual to a computerized system of records. All pertinent information filed by current, and some terminated registrants, and short-form registrants, as well as information concerning the foreign principals, has been entered into the system. This Report is based on material generated from this system. Further, the quarterly press releases and mailing of supplemental statement forms to the registrants are generated by this system. The staff is continuing to enter pertinent information filed by those registrants who have terminated their registrations during the period from 1938 to 1986.

#### ADMINISTRATION AND ENFORCEMENT

On June 3, 1991, a bill to amend the Act to provide the Department of Justice with the basic investigative tools and civil enforcement remedies necessary to ensure compliance with the Act was transmitted to both Houses of Congress by the Department.

This bill contained important improvements to the Act to ensure timely registration filings and effective and expeditious investigations by the

Department of Justice into possible civil violations. It also updated FARA to facilitate compliance with the Act by foreign agents and access to the filings by the public. These provisions are designed to implement the recommendations of the U.S. General Accounting Office (GAO) regarding ways to strengthen the administration and enforcement of the Act.

In response to GAO recommendations that the Department be given additional enforcement tools such as administrative subpoena power and a schedule of civil fines for minor violations, this bill would amend FARA to provide the Attorney General with authority to issue civil investigative demands to investigate compliance with the Act, similar to the authority contained in the antitrust and organized crime statutes, and would authorize the imposition of civil fines for late registration filings. In addition, the bill added some new definitions, changed the current system of random semi-annual reporting dates to a uniform system for reporting updated registration information, explicitly authorized registrants to execute registration documents utilizing a power of attorney, and clarified the circumstances under which an attorney may claim exemption from the Act.

Further, the bill restored the intent of Congress and provided an incentive for using the Department's Rule 2 "advisory opinion" mechanism (28 C.F.R. 5.2) by providing that the statute of limitations begins to run at the time an opinion is requested. The bill also protected the confidentiality of documents and information submitted by registrants and potential registrants in the course of inspections or in response to a civil investigative demand by providing a specific exemption for these documents under the Freedom of Information Act, and amended section 1505 of title 18, United States Code, to make obstruction of the new civil investigative demand a crime.

On August 28, 1991, the Department filed, in the U.S. District Court for the District of Columbia, a Complaint for Injunctive Relief under the Foreign Agents Registration Act against Young and Rubicam, Inc., a major advertising agency. The Complaint alleged that Young and Rubicam, while registered under

the Act in connection with its advertising activities on behalf of the Jamaica Tourist Board to promote tourism to Jamaica, failed to report the disbursement of \$894,626.80 in fees to Ad Ventures Ltd., a firm with no fixed address and a Cayman Islands bank account.

Simultaneous with the filing of the Complaint, Young and Rubicam filed a Stipulation and Consent to Final Judgment, without admitting or denying the allegations of the Complaint. Young and Rubicam agreed to file an amendment to its registration and supplemental statements filed during the period October 6, 1981 through October 6, 1986. The amendment disclosed that Young and Rubicam disbursed the following amounts to Ad Ventures for "On Site Services":

1981	\$ 93,600.00
1982	325,414.35
1983	206,064.84
1984	163,815.61
1985	90,732.00
1986	<u>15,000.00</u>
TOTAL	\$894,626.80

Young and Rubicam terminated its registration for the Jamaica Tourist Board in November 1990; however, it registered under the Act on August 6, 1991, as the agent of the Ministry of Tourism, Republic of Turkey. The terms of the Final Judgment require Young and Rubicam to disclose similar payments made in connection with its representation of any foreign principal for which its registration under the Act is required.

The Registration Unit continued to conduct in-depth inspections of a broad spectrum of registrants pursuant to Section 615 of the Act. As a result of such inspections of books and records, it was determined in several cases that disclosures were inadequate, thereby necessitating the submission of amendments to registration statements.

Unit personnel also continued to conduct field and office conferences in order to assist new registrants in fully meeting their reporting obligations under the Act. The Department also has retained the practice of distributing copies of registration statements and supplements to interested departments and agencies of the Federal Government.

Section 8(g) of the Foreign Agents Registration Act allows the Attorney General the discretion to notify registrants, in writing, that their registration is deficient, prior to instituting civil or criminal litigation. While not required by the Act, the use of this notice procedure is appropriate in some instances as either an alternative to litigation or as a precursor to litigation. After receipt of such a notification, it is unlawful for a person to act as an agent of a foreign principal following the 10 days allowed to bring the registration into compliance with the requirements of the Act. Each foreign principal of a registrant is provided with a copy of the Notice of Deficiencies sent to the registrant. In each of the four calendar years the Department issued formal Notices of Deficiency to several registrants in an effort to secure their compliance with the disclosure provisions of the Act.

Respectfully submitted,

Stuart M. Gerson

Acting Attorney General

LISTING ACCORDING TO GEOGRAPHICAL AREA OR NATIONALITY FIELD  
OF REGISTRANTS WHOSE STATEMENTS WERE IN ACTIVE STATUS  
AT ANY TIME DURING CALENDAR YEARS 1988, 1989, 1990 and 1991

(T) Indicates termination of entire registration

(t) Indicates termination of single foreign principal in a  
given geographical area

The dollar figure included for each registrant represents the total amount of money received in the United States in furtherance of the agency purpose by agents working on behalf of the foreign principal. This information is based on the registrant's reporting period rather than the calendar year.

The list is compiled alphabetically by country; however, it necessarily will include foreign principals which have no association with the government.

The format utilized in this part of the report sets forth the name, address and registration number of the registrant. Following this is set forth the identity of the foreign principal, the nature of the activities engaged in, the amount of monies received and the political propaganda disseminated, if any.
