REPORT OF THE ATTORNEY GENERAL TO THE
CONGRESS OF THE UNITED STATES ON THE
ADMINISTRATION OF THE FOREIGN AGENTS
REGISTRATION ACT OF 1938, AS AMENDED,
FOR THE CALENDAR YEAR 1979

TO THE SENATE AND HOUSE OF REPRESENTATIVES OF THE
UNITED STATES OF AMERICA IN CONGRESS ASSEMBLED:

I have the honor to report on the administration of the Foreign Agents Registration Act of 1938, as amended, pursuant to Section 11 of the Act (22 U.S.C. 621), which requires the Attorney General from time to time to report to the Congress concerning the administration of the Act, as well as the nature, source and content of political propaganda disseminated or distributed by agents of foreign principals registered under the Act.

It has been the policy of the Department since 1950 to prepare a report each year. This report covers the administration and enforcement of the Foreign Agents Registration Act for the calendar year 1979.

The format of the text of this year's report lists according to geographical area or nationality field all registrants who were registered at any time during the calendar year 1979, and includes the identity of the foreign principal(s), a description of the activities in which the agent engaged, a total figure for monies received, and a description of the political propaganda disseminated.

STATISTICAL SUMMARY

During the calendar year 1979, the Department received 92 new registration statements and terminated 94 registrations, leaving a total of 661 active registrations on file as of December 31, 1979. Individuals acting as officials or employees or rendering assistance to a registrant for or in the interest of the latter's foreign principal filed 565 short-form registration statements under the Act, bringing the present total of active short-form registration statements to 6,026.

In this reporting year, the staff of the Registration Unit reviewed over 1,300 supplemental statements and processed approximately 15,000 pieces of both incoming and outgoing correspondence which involved other government agencies, registrants and the general public. There were 144 agreements with new foreign principals reported by agents currently registered under the Act.

ADMINISTRATION AND ENFORCEMENT

The Registration Unit continued to conduct in-depth inspections of a broad spectrum of registrants pursuant to Section 615 of the Act. During the year, 8 such inspections of books and records were conducted by the staff. While in a number of cases it was determined that disclosures were inadequate thereby necessitating the submission of amendments to registration statements, in one case, a review of the documents obtained during the inspections appears to suggest violations of the Act which may warrant a seeking of judicial relief.

In December 1978, the Department filed an action styled: Attorney General v. American Chilean Council, et al. (Civil Action No. 78-2379) in the United States District Court for the District of Columbia which alleged the defendants violated the Act by willfully failing to disclose their true foreign principal, the Chilean Government, on whose behalf they had been deeply involved in lobbying for military sales and assistance. A final judgment was entered on November 8, 1979 permanently enjoining the defendants from violating Section 2 of the Act by failing to provide true and complete information concerning their representation of the

Government of Chile; from violating Section 4 of the Act by failing to properly label the propaganda disseminated by them on behalf of the Government of Chile; and from violating Section 5 of the Act by failing to adequately maintain the books and records required to be kept by the Act. In addition, the defendants were prohibited from acting on behalf of any foreign principal until such time as Marvin Liebman, the secretary pro-tem and organizer of the American-Chilean Council, effected their compliance with all the provisions of the Act by filing amended registration statements; publishing ads in Washington, D.C. and New York City newspapers which have national circulation, to notify the public of the action and offer to supply, without charge, to parties outside of Washington, D.C. who had received or seen material from the American-Chilean Council, copies of the amended registration statements; and notifying each individual or entity on its mailing list of this action by mailing a copy of the judgment or equivalent notice to any party outside of Washington, D.C. Further, Liebman and Liebman, Inc., a New York public relations business owned by Liebman, are restrained from acting within the United States on behalf of the Government of Chile for a period of one year.

In an ancillary matter to this case the United States District Court for the Southern District of New York issued an Order granting the Department the right to determine in the first instance, the relevancy of bank records being sought from the Chase Manhattan Bank, N.A. The hearing was the first in the country to be brought pursuant to the Financial Privacy Act. [Mario Arnello Romo v. United States Department of Justice, 79 Civ. 1990 (MEL) (S.D.N.Y. May 15, 1979)].

In addition, various pre-trial motions have been argued and discovery has proceeded in two cases. One case styled, Attorney General v. The Irish People, Inc., (Civil Action No. 76-1518), United States District Court for the District of Columbia, seeks a mandatory injunction requiring the defendant to register as an agent of a foreign principal pursuant to Section 612 of the Act and permanent injunction enjoining the defendant from further violating the Act. The Irish People, Inc., owns, publishes and distributes a weekly newspaper, The Irish People, and allegedly has received approximately \$45,000, free office space, telephone service, as well as the services of officers and members of the Irish Northern Aid Committee, which is registered as the agent of the Northern Aid Committee, Belfast.

In the other case styled, Attorney General v. Irish Northern Aid Committee (Civ. 77-708), United States District Court for the Southern District of New York, the Department commenced an action in February 1977 against the defendant for failing to make full disclosure of its activities in its statements filed under the Act and for failing to comply with the Act's provisions regarding the dissemination of "political propaganda".

As a result of our examination of the defendant's documents produced pursuant to Rule 34, F.R.C.P., we sought leave of Court to amend the complaint to include the allegation that the defendant has acted as an agent for the Provisional Irish Republican Army.

Further, Unit personnel continued to conduct field conferences in order to assist new registrants in fully meeting their reporting obligations under the Act.

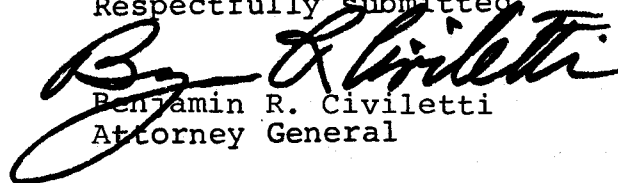

The Department also has retained the practice of distributing copies of registration statements and supplements thereto to interested departments and agencies of the Federal Government.

The principal purpose of Congress in enacting the Foreign Agents Registration Act was to ensure that the Government and the people of the United States would be informed of the identity of persons engaging in propaganda activities and other activities for or on behalf of foreign governments, foreign political parties, and other foreign principals.

The amendments to the Foreign Agents Registration Act were designed to strengthen the basic purposes of the original act; i.e., to protect the interests of the United States by requiring complete public disclosure by persons acting for or in the interests of foreign principals where such activities are political in nature or border on the political. The public disclosure required by the act permits the Government and the people of the United States to be informed as to the identities and activities of such persons and to be better able to appraise them and the purposes for which they act. These amendments arose in connection with hearings held by the Senate Foreign Relations Committee in their examination of the interrelationships of nondiplomatic agents with the executive and legislative branches of our Government as well as with our mass media.

Registration under the Act does not imply recognition by the United States Government either of the de jure existence or legality of the foreign principal, nor does registration indicate approval by the United States Government of the propaganda material disseminated or of the activities of the registered agent.

Respectfully submitted,

Benjamin R. Civiletti
Attorney General

LISTING ACCORDING TO GEOGRAPHICAL AREA OR NATIONALITY
FIELD OF REGISTRANTS WHOSE STATEMENTS WERE IN
ACTIVE STATUS AT ANY TIME DURING
CALENDAR YEAR 1979

(T) Indicates termination of entire
registration during 1979

(t) Indicates termination of single
foreign principal in a given
geographical area during 1979

The dollar figure included for each registrant represents the total amount of money received in the United States in furtherance of the agency purpose by agents working on behalf of the foreign principal. This information is based on the registrant's reporting period rather than the calendar year.

The list is compiled alphabetically by country; however, it necessarily will include foreign principals which have no association with the government.

The format utilized in this part of the report sets forth the name, address and registration number of the registrant. Following this there is set forth the identity of the foreign principal; the nature of the activities engaged in, the amount of monies received and the political propaganda disseminated, if any.
