Subject:

ASCAP and BMI are arrogant, demanding, and one sided. As a small bar that has live music 2 times a month and a juke box we are forced to pay over \$1000/year to the respective organizations. It is their formula which determines this cost and you are told to shut up and pay it. They even charge interest on a late payment for providing no service at all, merely a collection agency. It is very frustrating and unfair. Bill Godfrey Vintage Bar in Milwaukee, Wisconsin
