Relatively calm around the country last night. Very few reports of criminal activity and civil unrest. In Portland, OR, federal facilities remained secure. A crowd of 50-100 gathered at Alberta Park and marched to the PPB North Precinct. Crowd size was much smaller, in part, due to the 86 arrests made over the past two days. Although individuals burned mattresses and blocked streets, the crowd remained largely peaceful. PPB did make 15 targeted arrests, however, when individuals failed to comply with instructions. No riot or unlawful assemblies were declared. There were 9 additional arrests reported from yesterday. 2:18 PM

Update: Portions of your statement made into into all the general news stories on riots and Antifa, a collective 10k retweets (mine + DOJ) thus far, including Kayleigh retweeting, and on the cables. I spent the afternoon with walking reporters through prosecution of terrorism under existing fed law and how it squares with the POTUS tweet. I also coordinated with the FBI and Kayleigh.

Me

Hoping for more retweets.

I'm well aware. It's too bad he used that language. But things have gotten to an okay place. The base loved it. The most retweets I've ever seen of one of his tweets.

Q Mr. President, can you tell us about Roger Stone and why did you not take the advice of the Attorney General, who cautioned you against clemency?

On Maria Bartiromo - waiting for clip/transcript - but its being reported that POTUS made comments on Wray, that he hasn't been forthcoming and should produce more documents.

8:49 AM

And this:

"Bill barr has the chance to be the greatest of all time but if he wants to be politically correct he'll be just another guy"

KK

BARTIROMO: do you want to see a special counsel put in place to sure american people find out what took place here we know there was fbi agent changed difficulties changed evidence we know there was lying to the court, lying to the congress, leaking to media what -- if you do not win in november we are not going to hear another word about this so should ag bar.

PRESIDENT TRUMP: they will probably cancel it out they will probably cancels it out almost definitely, and a shame a shame but we caught them look we caught them carter page used him to spine on campaign others they used to spy on campaign a disgrace can be unbelievable they don't need is a special counsel first of all, they will have a special counsel durham working they don't need another special counsel we have had enough special counsels, frankly, everybody knows if you didn't have one bit of evidence, from what you already know from reading the newspapers they are guilty as hell the insurance policy in case losses we've got insurance policy we're going to go take him out you know that . that is what that meant strzok and page two lovers two great lovers got caughting.

9:02 AM

BARTIROMO: did you -- the mueller report was the mueller investigation a cover-up for what they had done? because mueller investigation we are getting all documents, now where we are getting declassification of documents we know yes, they lied to the senate oh, yes, they lies to fisa court all this stuff was available when mueller was doing investigation how come he didn't unrt any of this? was that just an opportunity to just have all the documents frozen, as a cover-up for what they i did to you.

PRESIDENT TRUMP: because they were only interested anything having to do with trump even though they

KK

knew all of this stuff, strzok and page, their text messages all deleted by mueller, mueller went in himself lied to congress, because he said he didn't apply for a job to head fbi and he did we have absolute proof of that he came in, looking to run the fbi early on, the following day he was given the job as special process cutter i called it process cutter not a counsel they say special counsel he -- its really o process cutter i want to be more accurate think of it spent 48 million dollars, plus , you don't even know what they spent, looked at everything they looked at my taxes i am sure they looking at everything, with all of that, no collusion i have a friend a very sophisticated man one of the most successful people you know him very well he said you have to be the most honest person in the world, to escape the greatest witch hunt ever, perpetrated they say no collusion i did nothing wrong they said, i never knew you were that honest, he said you must be the most honest man in the world, so then they take it down they send it to new york, well listen we couldn't find anything, let's send it into new york, into the democrat lion's den so they a play games there for years, it is a disgrace. what is going on in this country we've got to stop it we've got to stop it we are getting close.

9:02 AM

BARTIROMO: we know.

PRESIDENT TRUMP: have a grateful.

BARTIROMO: mr. president we know the fbi lied to the senate, in february of 2018 christopher wray was running fbi there president is christopher wray hiding all this stuff protecting the fbi? should he be shep down.

PRESIDENT TRUMP: christopher wray was put there we have election coming up. i wish -- was more forth

KK

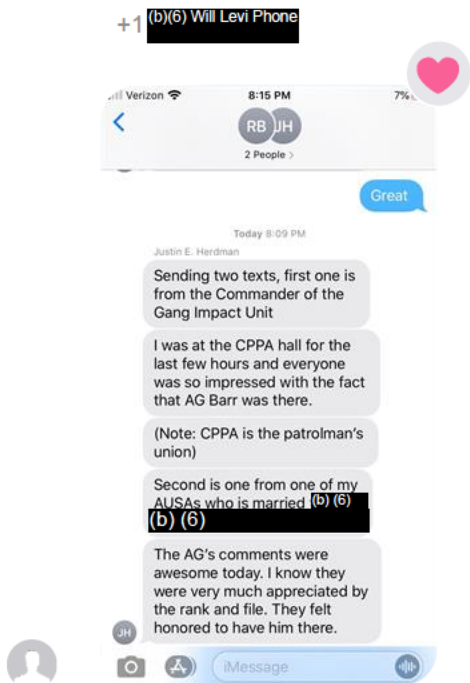

Kerri Kupec

coming he certainly hasn't been there are documents they want to get, that we have said we want to get. we are going to find out and he is going to give those documents but certainly he has been very, very protective he was put there, for a good reason, he was chosen by a certain person, and i said go ahead put whoever you want i am so honest that i said you could put anybody you want let's see how wray turns out he is going to turn out one way or the other, i will tell you bill barr durham have a chance, to be bill barr chance to be greatest of all time if he wants to be politically correct he will be just another guy he knows all the answers he knows what they have goes right to obama, and it goes right to biden they've the meetings that was one meeting they caught them they had many meetings.

"It's tragic. But they did an incredible job under the circumstances. Another very sick person. So I just want to thank everybody involved. And always, you say, as bad as it was, it could have been worse. But it was certainly bad. A very, very sad situation." - POTUS

12:35 PM

Kerri Kupec

Response to gun violence: "We're looking at the same things... There's a big package of things that's going to be put before them [Congress], by a lot of different people. We have a lot of groups working on it.... This really hasn't changed anything. We're doing a package. ... A lot of people are talking about it and that's irrespective of what happened yesterday in Texas."

"We're looking at a lot of different things. We're looking at a lot of different bills. Ideas, concepts. It's been going on for a long while. Background checks -- I will say that for the most part, sadly, if you look at the last four or five, going back even five or six or seven years -- for the most part, as strong as you make your background checks, they would not have stopped any of it. So it's a big problem. It's a mental problem. It's a big problem."
