Exhibit B requires BPXP to implement specific improvements related to deep water drilling safety, including, *e.g.*: (1) third party verification of blowout preventers; (2) improvements in its cement design and competency; (3) the maintenance of a real-time, drilling operations monitoring center in Houston; (4) completion of additional oil spill response training and drills; (5) audits of the Safety and Environmental Management Systems of BPXP-contracted drilling rigs and BPXP-operated platforms, including BPXP-owned platform rigs; (6) development and implementation of a well control competency assessment plan for those it uses as Well Site leaders; (7) in collaboration with industry and government, initiation of at least four pilot projects to evaluate technology enhancements intended to improve operational safety with respect to deep water drilling and make available any resulting data or technology to anyone on commercially reasonable terms; and (8) requirements related to the use of two blind-shear rams on blowout preventers. Pursuant to Exhibit B, BPXP has submitted a detailed Implementation Plan for accomplishing these and other measures related to safe deep water drilling operations.

Exhibit B to the Plea Agreement and its Implementation Plan are attached to the Consent Decree as part of Appendices 5 and 6, respectively.

c. On March 13, 2014, BP p.l.c., BPCNA, BPXP, and certain other BP Entities entered into an Administrative Agreement with the EPA to resolve all suspension and debarment matters arising from the *Deepwater Horizon* Incident. The Administrative Agreement incorporates terms and conditions of both the Plea Agreement noted above and of a Securities and Exchange Commission Judgment Order entered against BP on December 10, 2012 (*Securities and Exchange Commission v. BP p.l.c.*, E.D. La.). The Administrative Agreement also requires actions related to maintenance or improvement of ethics and compliance programs and good corporate governance activities, such as: code-of-conduct training, the operation of an employee concerns hotline, and maintenance of risk-based compliance standards and procedures for BP Entities based in the United States. The Administrative Agreement also contains certain other specific additional provisions targeted to deep water drilling safety in the United States, including provisions related to contractor oversight and audits of safety and environmental management systems. The ethics monitor under the Plea Agreement also serves as an ethics monitor under the Administrative Agreement. A copy of the Administrative Agreement is attached to the Consent Decree as Appendix 4.

BPXP shall provide each document identified in Appendix 10 in the time and manner and format required by Appendix 10. If the relevant agency believes that any material should not have been redacted under the applicable agency's standards for protection of trade secrets, confidential business information, and/or personally identifying information, such agency shall informally notify BPXP of the objection and initiate informal discussions concerning the redacted material. In the event the parties are unable to informally resolve the objection, the relevant agency may in its discretion withdraw the objection, or seek to resolve the objection pursuant to the provisions of Section XII of this Consent Decree (Dispute Resolution).

40. Expiration of Requirement to Provide Documents. The requirements of Paragraph 37 shall terminate with respect to documents required by the Administrative Agreement when the Administrative Agreement terminates and with respect to documents required by Exhibit B (including the Implementation Plan) when the Plea Agreement terminates.

All postings stemming from Exhibit B shall remain posted until two years after the last such posting required. All postings stemming from the Administrative Agreement shall remain posted until two years after the last such posting is

54. Exclusivity of Remedy.

a. Unless otherwise expressly provided for in this Consent Decree, the dispute resolution procedures of this Section shall be the exclusive mechanism to resolve disputes arising under this Consent Decree. BPXP's failure to seek resolution of a dispute under

this Section shall preclude it from raising any such issue as a defense to an action by the United States or the Gulf States to enforce any obligation of BPXP arising under this Consent Decree.

b. The dispute resolution procedures set forth in this Section shall not apply to disputes among the United States and Gulf States, including, but not limited to, disputes arising under Appendix 2. Such disputes shall be subject to the provisions of Appendix 2 and any Memoranda of Understanding developed pursuant to Appendix 2.

55. Informal Dispute Resolution. If any Party determines that there is a dispute subject to the Dispute Resolution provisions of this Consent Decree, that Party shall send a written notice of dispute to all other Parties outlining the nature of the dispute and requesting informal negotiations to resolve the dispute. The Parties shall endeavor to resolve the dispute through good faith negotiations, but if the Parties cannot resolve a dispute by informal negotiations, then the position advanced by the United States, after consultation with any affected Gulf State, shall be considered binding unless BPXP invokes formal dispute resolution procedures as set forth below.

Subject only to the reservation of rights in Paragraph 64, the Gulf States also covenant not to sue BPXP and/or BP Entities for (a) past, present or future Natural Resource Damages, whether known or unknown, including assessment costs, resulting from the

*Deepwater Horizon* Incident; and (b) costs of response or removal related to the *Deepwater Horizon* Incident.

62. Covenants Concerning Natural Resource Damages. The United States and Gulf States agree that the payments provided under Sections V and VII, together with the payments previously provided under the Framework Agreement, will fully resolve their claims for Natural Resource Damages, whether known or unknown, resulting from the *Deepwater Horizon* Incident.

63. Covenants Concerning Indemnified Parties. The United States and the Gulf States, including any future-designated Natural Resource Trustees, shall not assert claims against any and all Indemnified Parties to the same extent that the United States or Gulf States have covenanted not to sue BPXP and/or BP Entities in Paragraphs 60 and 61, as applicable. For all such Indemnified Parties this covenant excludes penalties, and for Anadarko this covenant also excludes royalties that the United States alleges are owed to DOI on oil from the Macondo Well that was discharged during the *Deepwater Horizon* Incident.

64. Reservations of Rights by the United States and Gulf States. Notwithstanding any other provision of this Consent Decree, the United States and the Gulf States each reserve the following claims against BPXP or any other person:

- a. Claims based on a failure to meet a requirement of the Consent Decree;
- b. Claims based on past, present, or future discharges or releases of oil or a hazardous substance outside the definition of “*Deepwater Horizon* Incident”;
- c. Claims based on any discharge or release of oil or a hazardous substance from the Macondo Well after the Date of Lodging of the Consent Decree; and

d. Claims based on any violation of federal or state law that occurs after the Date of Lodging of the Consent Decree.

65. Additional Reservations of Rights Solely by the United States. Notwithstanding any other provision of this Consent Decree, the United States reserves the following claims against BPXP or any other person:

a. Claims for response or removal costs related to the *Deepwater Horizon* Incident that are incurred on or after July 2, 2015 and have been paid by the OSLTF, provided that where oil is addressed in such a response or removal, the oil is found to be from the Macondo Well based on either: (i) a positive chemical fingerprinting test; or (ii) a preponderance of the evidence, including chemical testing and other factors, taking into consideration any evidence provided by any BP Entity that disputes liability. BPXP and the BP Entities reserve all their rights to assert any factual or legal defenses against claims asserted by the United States under this subparagraph.

b. All subrogated rights under OPA, 33 U.S.C. § 2715, with respect to any claims for damages other than Natural Resource Damages resulting from the *Deepwater Horizon* Incident that are (i) brought by parties other than the United States or any of its agencies, departments, or branches, the Gulf States or any of the Gulf States' agencies, departments, branches, or any Settling Local Entity, and (ii) are paid by the OSLTF after July 2, 2015. The BP Entities reserve all their rights to assert any factual or legal defenses against subrogated claims asserted by the United States under this subparagraph.

66. Data Sharing and Related Agreements Voided. As of the Effective Date of this Consent Decree, any and all Natural Resource Damages assessment agreements related to the

*Deepwater Horizon* Incident between any Trustee and BPXP, including any commitments in work plans or other formal or informal agreements, written or oral, to (i) provide data, analysis or any other material or information related to the *Deepwater Horizon* Incident natural resource damages assessment or restoration planning or (ii) to share or preserve any tangible things or information, shall be void. Each BP Entity will keep confidential and not make public information as provided under the following data sharing agreements: Sea Turtle Data Sharing Agreement; Marine Mammal Data Sharing Agreement; and the Sea Turtle Carcass Drift Study.

67. Savings Provision. Except as provided in Paragraph 66, other than the Project Stipulations entered into pursuant to the Framework Agreement, these covenants not to sue do not affect rights under any written agreement or settlement, existing as of July 2, 2015 to which any instrumentality of the United States and any of the BP Entities are both a party.

68. BP Entities' Covenants to the United States and the Gulf States. BPXP and the BP Entities each covenant not to sue the United States or any of the Gulf States for, or to maintain in any administrative proceeding, any claim or defense that any of them has asserted in MDL 2179 and any other claims asserted or that could be asserted by any of the BP Entities against the United States and/or the Gulf States arising from the *Deepwater Horizon* Incident, including, but not limited, to claims pursuant to OPA §§ 1007, 1008, 1012, 1013, or 1015(a), 33 U.S.C. §§ 2707, 2708, 2712, 2713, or 2715(a), or before the IBLA, based on transactions or occurrences prior to July 2, 2015.

69. Treatment in Federal Contracts. In their capacities as federal contractors and lessees, each BP Entity agrees not to charge the United States, such as through a “cost plus” contract, for any payments made or costs incurred in connection with U.S. Covered Matters or

State Covered Matters and the Plea Agreement. Nothing in this Paragraph shall require any BP Entity to change its ordinary accounting practice for overhead expenses in contracts that are not “cost plus” contracts.

70. Gulf States’ Covenants to the United States. Each of the Gulf States covenants not to sue or otherwise assert any claims against the OSLTF arising from the *Deepwater Horizon* Incident.

71. Attorney’s Fees and Costs. Except as otherwise ordered by the Court, no Party or BP Entity shall seek from another Party or any BP Entity any costs within the meaning of 28 U.S.C. § 1920 or attorney fees arising from MDL 2179 (including any matters transferred to MDL 2179), State Covered Matters or U.S. Covered Matters.

72. Dismissal of Appeals. Upon the Effective Date of the Consent Decree, BPXP and the United States agree to file with the U.S. Court of Appeals for the Fifth Circuit in appeal docket number 14-31374 a joint stipulation stating that they have settled their dispute regarding the CWA and accordingly that BPXP is no longer seeking Fifth Circuit review of the Court orders at issue in that appeal with respect to the United States, but will continue to seek review of those orders to the extent that those orders relate to any ongoing disputes between the BP Entities and other parties to that appeal and/or in other pending proceedings. The BP Entities also agree that in the remaining appeal they will not assert any legal arguments interpreting the standard for determining gross negligence under the CWA or OPA, provided, however, that nothing in this Paragraph shall be construed to limit the BP Entities’ ability to advance, or respond to, any legal arguments regarding the standard for gross negligence or recklessness under general maritime law.

73. Dismissal of IBLA Appeals. By no later than 15 Days after the Effective Date, BPXP shall withdraw with prejudice its appeals IBLA 2012-50, IBLA 2012-85, and IBLA 2010-0236, and the incidents of noncompliance issued by BSEE on October 12, 2011 and December 7, 2011, as described in Paragraph J, are then fully and finally resolved.

74. Instrumentalities. All references to the Gulf States in this Section XIII and Paragraph 5 shall include each and every of the five Gulf States and, respectively, all State Trustees, all branches, agencies, associations, authorities, boards, bureaus, councils, departments, educational institutions or systems, components, public benefits corporations, or other instrumentalities of any kind, administrators, elected or unelected officials, officers or delegates (other than in their individual capacities), attorneys, or other agents of any kind of each of the Gulf States, provided however that a reference to a Gulf State shall not include counties, parishes, municipalities, or any other local governmental or local political subdivisions authorized by law to perform local governmental functions.

76. Limitation on Naming Trustees.

a. The Trustees designated by the United States and each of the Gulf States with respect to the *Deepwater Horizon* Incident are set forth in Appendix 1. No Gulf State shall

b. The Trustees will negotiate a revised Memorandum of Understanding among them which will, among other things, reflect USDA and EPA membership in the Trustee Council.

77. Final Judgment. Upon approval and entry of this Consent Decree by the Court, this Consent Decree shall constitute a final judgment of the Court as to the United States, each of the Gulf States, BPXP, BPCNA, and BP p.l.c. The Court finds that there is no just reason for delay and therefore the Court enters this Consent Decree as a final judgment under Federal Rules of Civil Procedure 54(b) and 58.

78. Integration. Except as expressly provided in Paragraph 75, this Consent Decree constitutes the final, complete, and exclusive agreement and understanding among the Parties with respect to the settlement embodied in this Consent Decree and supersedes all prior agreements and understandings, whether oral or written, concerning the settlement embodied herein. No other document, or any representation, inducement, agreement, understanding, or promise, shall constitute any part of this Consent Decree or the settlement it represents.

79. No Admissions.

a. Except as expressly provided in this Consent Decree, nothing in this Consent Decree shall constitute an admission of any fact or law by any Party except for the purpose of enforcing the terms or conditions set forth herein.

b. The Parties agree that Appendix 2 and the PDARP, and any amendments or modifications thereto, shall not constitute an admission of fact or law by BPXP or any BP

Entity. BPXP and the BP Entities reserve their right to object to any statements, data, findings, methods, or calculations in the PDARP or future restoration plans related to the *Deepwater Horizon* Incident, in any proceeding, forum, or matter other than a proceeding to challenge the legal sufficiency or validity of the Consent Decree or the PDARP or any such future plan.

82. Effect of Withdrawal by the United States or One of the Gulf States. If the United States or any Gulf State withdraws from the proposed Consent Decree, the proposed Consent Decree shall become null and void as to all other Parties.

83. Consent to Entry. BPXP, BPCNA, and BP p.l.c. each consent to entry of the proposed Consent Decree without further notice and agree not to withdraw from or oppose entry of the proposed Consent Decree by the Court or to challenge any provision of the proposed Consent Decree, unless the United States or one of the Gulf States withdraws from the proposed Consent Decree pursuant to Paragraph 81.

85. Effective Date of Consent Decree. This Consent Decree takes effect upon the Effective Date.

86. Payment Dates. If any payment date provided herein falls on a Saturday, Sunday, or federal holiday, the payment obligation shall extend until the close of business of the next business day.

**XVII. MODIFICATION**

87. Modification of Consent Decree. The terms of this Consent Decree, including any Appendix other than Appendix 2, may be modified only by a subsequent written agreement signed by all the Parties. Where any such modification constitutes a material change to this Consent Decree, it shall be effective only upon approval by the Court.

88. BP Entities' Consent to Modifications of Appendix 2. The Trustees will provide a period for public comment on the proposed PDARP consistent with OPA regulatory requirements, including 15 C.F.R. § 990.23, and other legal requirements. Revisions to the proposed PDARP that the Trustees, in their discretion, decide to make in response to public comments may require the United States and the Gulf States to make conforming modifications to Appendix 2 to this Consent Decree. The BP Entities consent to modifications to Appendix 2 without further notice.

## **XVIII. TERMINATION**

89. Request for Termination. BPXP may serve upon the United States and each of the Gulf States a request for termination, after BPXP has completed the requirements of Sections IV, V, VI, VII, VIII, IX, X, and XI (including all payments required by those Sections).

90. Motion for Termination. Following receipt by the United States and each of the Gulf States of BPXP's request for termination, the Parties shall confer informally concerning the request and any disagreement that the Parties may have as to whether BPXP has complied with the requirements for termination of this Consent Decree. If the United States, after consultation with the Gulf States, agrees that the Consent Decree may be terminated, the United States and BPXP shall submit, for the Court's approval, a joint stipulation terminating the Consent Decree.

91. Effect of Termination. Any termination of this Consent Decree shall not modify or diminish the Covenants Not to Sue and Reservations set forth in Section XIII, and any related definitions, all of which shall survive any termination of this Consent Decree. Appendix 2 of this Consent Decree also shall survive the termination of this Consent Decree and become a separate, freestanding agreement among the Trustees after such termination.
