<sup>1</sup> Reflects the primary type of conduct under investigation at the outset. See "District Court Antitrust Cases" for numbers of cases by offense. Does not include business reviews or premerger notifications, but includes investigations initiated as a result of premerger notifications. We have adjusted FY 1981 through FY 1990 records which previously counted investigations each time they went into a different phase. Matters are now counted only once, even if they go through several stages of investigation.

<sup>2</sup> Investigations opened with the purpose of exploring judgment modification or termination are not included here in the total number of preliminary inquiries initiated. Such judgment modification/termination investigations are addressed separately under the Judgment Enforcement indicators.

<sup>3</sup> A very limited number of investigations with peculiar factual circumstances (e.g., large number of local markets at issue, large number of potentially competitive products, and the large volume of commerce involved) account for the large increase in the numbers of CIDs issued since 1994. For the vast majority of investigations, there was little or no increase in the use of CIDs.

<sup>4</sup> Combined documentary and written CIDs served to one person, corporation, partnership, or legal entity.

<sup>16</sup> Dollar figures are amounts imposed by the court during the fiscal year.

<sup>17</sup> Does not include fines “agreed to” by defendants in plea agreements during the fiscal year but not yet imposed by the court.

<sup>18</sup> Frequently restitution is not sought in criminal antitrust cases, as damages are obtained through treble damage actions filed by the victims.
