

**“Your Future, Your Decision”**  
**Rebecca M. Johnson Middle School**  
**ESSAY WINNER – Nov. 2014**

**Demetrius**

What do I want to be when I grow up? When I grow up, I want to be a computer programmer. My dad and I both have a tablet and I try to help him with his iPad air.

I am really happy when I go to Mr. Daggetts’s classroom. There we learn more and more about computer programs and how to use them.

I am really good with the new Windows 8 touch screen laptop and since it can fold into a tablet it was easy for me to use. I know how to put up wallpapers on my android prestige 7. Model tablet. I know my mom’s iPhone number and passwords. This tells me, I know a lot about computers and I want to learn more about them.

The decision I have to make to be a computer programmer are simply; first I will need to pass all mathematics and science classes. Both classes are needed to make a good programmer. Then I will also need to study and learn about computers hard drives and software. Finally I will need to graduate with all “A”.

This is what I want to be when I grow up and how I plane to achieve what I want to be.
