<sup>1</sup> Total generated gross receipts are disbursed into two categories: distributions, and fees and costs. Due to data entry and rounding errors, these disbursements do not equal to the total receipts.

<sup>2</sup> Percent of the total receipts paid to a subcategory

<sup>3</sup> Count represents the number of cases that had funds disbursed to the corresponding category

<sup>4</sup> Percent of cases that had funds disbursed to the corresponding subcategory

<sup>5</sup> Funds disbursed may include negative numbers due to human error and the technical limitations of the systems that are the source of the data. In these cases the minimum is set to zero.
